

**Spartanburg, South Carolina - HOKE, the Logical Choice for Safety and Reliability, has Achieved Independent Third Party Certifications for ASTM F 1387 Standards.**

HOKE has achieved independent third party certification of GYROLOK® fittings (¼” to 1”, 316 Stainless Steel) to the ASTM F 1387-99 (2005) performance standards for mechanically attached fittings. Historically, ASTM F-1387 certification was a requirement for all naval surface ships. In recent years, it has become a requirement for fittings used in oil & gas applications and other key markets. The certificate applies to ASTM F 1387 standard qualification and supplementary tests.

The scope of the standard qualification testing includes:

Examination of Specimen  
Hydrostatic Proof Test  
Impulse Test  
Tensile Test

Pneumatic Proof Test  
Hydrostatic Burst Test  
Flexure Fatigue Test  
Rotary Flexure Test

The scope of the supplementary testing includes:

Thermal Cycling Test  
Stress-Corrosion Test

Vibrations Test

**About CIRCOR Energy**

CIRCOR Energy is a market-leading, global provider of integrated flow control solutions specializing in the manufacture of highly engineered valves, fittings, pipeline products and services, and associated products, for critical and severe service applications in the oil and gas, power generation and process markets.

Comprised of best-in-class, historically significant product brands, CIRCOR Energy consistently satisfies its customers’ mission-critical needs by developing precision technologies that collectively improve their ability to control, manage, measure and regulate the safe and efficient use of fluids and other natural resources.

CIRCOR Energy: Excellence In Flow Control.
