CIRCOR INSTRUMENTATION TECHNOLOGIES RECEIVES TWO AWARDS  
FROM THE NATIONAL SAFETY COUNCIL

**Spartanburg, SC 3/17/2009** - The National Safety Council has presented two awards to the CIRCOR Instrumentation Technologies facility in Spartanburg, SC. These awards recognize the ongoing safety improvements which are accomplished only through the support and activities of the facility as a whole. The awards presented are:

- **Significant Improvement Award** – The National Safety Council’s Significant Improvement Award recognizes companies, units and/or facilities that have a minimum 20% reduction in injuries and illnesses that involve days away from work and have maintained or reduced the number of fatalities.
- **Occupational Excellence Achievement Award** – The National Safety Council Occupational Excellence Award recognizes participants (companies, units and/or facilities) that have reported injuries and illnesses that involved days away from work, equal to or less than 50% of the BLS rate for their 6-digit NAICS code, and have had no fatalities during a calendar year, January 1 through December 31, 2008.

### **About CIRCOR Instrumentation Technologies**

CIRCOR Instrumentation Technologies (CIT) is a product group of CIRCOR International (NYSE:CIR), specializing in fluid process control solutions with orifice sizes typically up to 1". Our main product lines include HOKE brand ball, needle, packless, diaphragm, solenoid, and metering valves; GO brand pressure regulators, TOMCO brand quick couplers, GYROLOK compression tube fittings, and CIRCORTech brand fully integrated sampling systems.

CIT markets primarily to the petrochemical, refining, power generation, food and beverage, semiconductor, and pharmaceutical industries, and to OEMs. CIT separates itself from the competition by offering highly engineered components manufactured to exacting standards with a variety of custom options.
